Cleaning Information

WS: Water/Solvent Cleaner - Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

Please keep this card intact. Individual samples available.

Color matching: Dauphin will always attempt to ship a satisfactory commercial match. Because of industry standard dye lot variation, colors may not match exactly.

Specifications are correct at time of printing.
