

glide tables

VALO[®]

the possibilities are endless with a versatile glide table

Choices, choices, choices. That's the versatility of the Glide Table, made to service your needs anywhere in your office at the lowest possible price. With 18 color choices, 6 shapes, and 10 bridge options, the possibilities are truly unlimited.* And if that were not enough, additional features can be added to enhance your table.

So take your pick. Racetrack, crescent, rectangle, round, square, and boat-shaped. Pedestal, T-base or post leg. Flipped for easy upright storage or fold for stacking. On wheels or glides. You get the picture. Because at Valo, we believe in giving you options—with style, comfort and value intricately woven to create furniture that works for you.

*For the complete listing of options, please refer to the Glide price list.

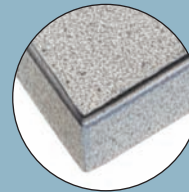

Adjustable Glides or Casters

Adjustable glides can accommodate uneven floors. Locking hard casters available for carpeted areas, locking soft wheel casters for hard floors.

Bridges for Multiple Configurations

Special connectors allow tables to be used individually or linked with a bridge and be configured into U shapes, V shapes, closed squares or any number of configurations.

Strong and Rugged

All edges are 3mm PVC and come standard to match surface finish. The surface is either ATS (advanced Thermo fused surface 1 inch) or HPL (high pressure laminate on a 1 1/8 inch particle board core)—translation: these tables are durable.

Large Selection of Colors & Shapes

Available in 18 color choices, multiple base options, and many bridging options for maximum configuration flexibility.

Fold or Flip Bases

Flipped tables are available for easy upright storage and nesting. Folding tables can be stacked with or without a dolly, saving you space. Or choose a fixed table.

Right, shown with matching modesty panel

The **Glide Table** is all about your preferences—color, shape, style, even how you choose to configure it. We can go on and on about your choices. All table edges are in 3mm PVC, with edge color matching surface finish (where speckled finish is preferred, a solid predominant matching color will be used). Black edges are a no charge option. Modesty panels are available in matching laminates. All leg options are silver or black epoxy paint. And bridge tops ship with flat brackets for attachment. An optional ganging system is available if the table will be dismantled regularly.
